EDUCATION

B.E.(Computer Engineering)

LJ Institute of Engineering and Technology

07/2018 - Present

9.12

Higher Secondary School (HSC - CBSE)

St Mary's School

06/2016 - 05/2018

92.2%

PERSONAL PROJECTS

Covid-19 Tracker (09/2020 - 10/2020)

- A responsive country-wise Covid-19 Tracker App made using Flutter and disease.sh API which shows daily and total recovered cases, active cases and deaths, along with a graphical representation of them. It works on Android and iOS both

Quizpicable Me (Mobile Quiz Game) (07/2020 - 08/2020)

- A responsive quiz app with various quiz genres such as Entertainment, GK, Technology, etc made using Flutter that runs on Android and iOS both.

Food catalogue-Website (02/2021 - 03/2021)

- In this project, I created a food catalogue using HTML, CSS, React using TheMealDB API. The application allows for one to view all the meals, search for a meal basing on the available categories, and view all the ingredients used to prepare the meal.

Notes Keeper (11/2020 - 11/2020)

- This is a React web application where we can keep our notes and information. This web app helps in easy storing of notes for students and official workers.

Online Bakery (03/2021 - 04/2021)

- An online responsive website for selling home made chocolates and bakery items made using HTML, CSS, Javascript and bootstrap. It also has order and contact forms.

WORK EXPERIENCE

Web development intern

Asambhav Solutions

11/2020 - Present

Gandhinagar, Gujarat

Asambhav Solutions is an engineering focus IT services company for Web designing and makeover, app development, IoT, automation, dev ops, AI and ML

Achievements/Tasks
